Bonneville Joint School District No. 93
Code of Student Conduct

Introduction

In order to maximize educational opportunities for students, Bonneville Joint School District No. 93 has adopted this Code of Student Conduct to support the creation of a safe, positive learning environment for every student, employee, and school visitor. Effective learning in school requires discipline, which is defined as the absence of disturbances that interfere with the effective functioning of the school community and the presence of a friendly, business-like atmosphere where students and school personnel work cooperatively toward mutual goals. Every student has the right to learn and every teacher has the right to teach. Anything or anyone interfering with these rights should be corrected, or removed from the school environment.

In addition to this Code, the Board of Trustees has adopted policies and procedures that govern conduct in the District. Policies are referenced herein and can be viewed at www.d93schools.org by clicking on the Parents & Students link at the top of the home page. Then click on either Code of Student Conduct Parent/Student Version, Spanish Version, or Unabridged Version. Copies can be printed from the website or obtained from any school office or the District Office at 3497 N. Ammon Road, Idaho Falls, Idaho.

Students and parents/guardians should review all information in the Code of Student Conduct carefully and discuss the consequences of violating the rules. At time of registration, students and parents/guardians are required to acknowledge they have reviewed the Code of Student Conduct and are aware of the explanation of rules it provides.

Questions regarding the Code of Student Conduct should be directed to the building principal or to either the Superintendent or Deputy Superintendent at 208-525-4400.

Purpose of the Code of Conduct

This Code of Student Conduct is not comprehensive nor is it a contract between the District and students or their parents or guardians, and may be amended at any time. The purpose is to assist students, teachers, and administrators in maintaining an environment conducive to learning. It establishes a zero tolerance policy for conduct that may endanger the safety of students, staff, or the community and/or disrupts the educational experience for other students. The Code clearly states the District's standards for acceptable student conduct and explains the consequences for unacceptable and serious misbehavior.

The Code of Student Conduct will:

1. Describe the scope of the code, equal opportunity, language access, and reporting discrimination or harassment;
2. Describe the roles of parents/guardians, students, and school personnel regarding cooperation required to facilitate effective learning;
3. Describe student and parent/guardian rights and responsibilities regarding general information, student enrollment, consistent and timely attendance, counseling services, promotion or retention, grades and/or credit, appropriate dress and grooming, student driving and parking on school premises, free speech/expression and student publications, privacy of student records, privacy and property rights, search and seizure, use of technology, and student activities and assembly;
4. Describe the right to appeal including grievance procedures;
5. Describe disciplinary actions;
6. Describe the process for reporting discrimination or harassment;
7. Identify levels of offenses and how rule violations are labeled;
8. List the Code of Student Conduct rules;
9. Identify and standardize procedures for administering formal disciplinary actions when violations occur (found in the unabridged version); and
10. List pertinent definitions.

Scope of the Code

Although increasing age and maturity should lead to students assuming greater responsibility for their actions and may require different types of disciplinary action, the procedures identified in this Code of Student Conduct shall apply to all Bonneville Joint School District No. 93 students.

School officials may discipline students for misconduct as defined in this Code that occurs:

1. on school premises at anytime;
2. during any school-sponsored activity, function, or event regardless of location;
3. while being transported to and from school, including at bus stops; or to school sponsored events, field trips, or extracurricular or co-curricular activities on school buses or other conveyances at public expense; or
4. off school grounds whenever the conduct may reasonably be expected to:
 - a. undermine the proper disciplinary authority of District employees;
 - b. be detrimental to the health, safety, and/or welfare of the school community; or
 - c. disrupt the school environment.

Equal Opportunity Statement

Bonneville Joint School District No. 93 complies with all federal, state, and local laws, and provides an equal opportunity for all students. Discrimination in admission, grading, discipline, or any other activity based on race, creed, color, national origin, religion, ancestry, age, marital status, sexual orientation (known or perceived), gender identity expression (known or perceived), gender, handicap, nationality, or citizenship is prohibited. All decisions will be administered without regard to any of these categories.

Language Access Statement

Regarding school related information, students and parents or guardians whose first language is not English have the right, where feasible, to translation and interpretation services free of charge. If requested by the student or his/her parent or guardian, the District will provide language access services through qualified personnel as far as it is practicable. To request copies of this Code in languages other than English, please contact Special Services at 208-557-6893.

SECTION 3

RIGHT TO APPEAL UNFAIR PENALTIES

There may be times when students feel they have been unfairly penalized. When this is the case, they should follow policy #4112 Uniform Grievance in order to obtain a prompt and equitable solution at the lowest administrative level.

Most problems can be solved if a student will discuss the matter with the teacher or staff member who was involved. If a student feels uncomfortable with that person, he/she may request a conference with the next level of authority. The student or parents or guardians may also request the presence of a third party, such as a counselor, assistant principal, other staff person, translator, or interpreter. If discussing the matter does not resolve the matter, the student or his/her parent or guardian should submit a written statement, using the Uniform Grievance Concern Form #4112F1, to the building principal or his/her designee within the required timelines. The concern form should contain a statement of what happened, who was involved, and suggested solutions. The principal or his/her designee should respond using the Uniform Grievance Response Form #4112F2.

If the matter is not resolved with the principal or his/her designee, the student or his/her parent or guardian may, pursuant to policy #4112 timelines, request in writing that the Superintendent or his/her designee review the decision. The Superintendent's or his/her designee's decision shall be final for the appeal of any penalties that are fewer than ten (10) days. Parents or guardians may also appeal a disciplinary reassignment recommendation to the Superintendent or his/her designee within five (5) days of notification of such.

Bonneville Joint School District No. 93
Code of Student Conduct

If the student or his/her parents or guardians believe that District policy has not been followed or the imposed penalty is ten (10) days or more, a written appeal may be made to the Board of Trustees. The decision of the Board will be final.

SECTION 4

DISCIPLINE

All students shall submit to the reasonable rules of the Bonneville Joint School District No. 93. Refusal to comply shall constitute sufficient cause for discipline, suspension, or expulsion (Policy #3340 *Corrective Actions and Punishment*).

Corporal Punishment

The District does not permit corporal punishment as a means for discipline. No teacher, other school employee, or administrator shall use physical force or physical contact against a student or strike a student as punishment for a violation of the *Code of Student Conduct*. This prohibition also extends to parents, guardians, or visitors on school grounds. However, a teacher, other school employee, or administrator shall be authorized to use reasonable and necessary physical force to restrain a student in order to protect one's self or other persons, prevent the destruction of property, or to prevent any illegal overt act on the part of a student.

Manifest Determination

If a student with disabilities violates the *Code of Student Conduct* and disciplinary action involves suspension, recommendation for expulsion, or other actions involving removal from a program for more than ten (10) days, the *Individual Education Plan* (IEP team must meet to determine whether the misconduct resulted from the disability. If the behavior is determined to be a manifestation of the disability, a functional behavioral assessment must be conducted and a behavior intervention plan either implemented or reviewed and modified to address the behavior. If this meeting determines the misconduct was not a result of the disability, the student can be suspended or expelled. Educational services can be terminated after an expulsion. When this happens, the principal or his/her designee should work with the IEP team to determine if alternative education programs can be put into place so that the student can continue his or her education.

Activity or Privilege Suspension

Violations of School Bus Safety Rules

The District Transportation Supervisor and school bus drivers, along with building principals or their designees will manage school bus safety rules violations. The principal/designee has the authority to take appropriate reasonable disciplinary action whenever a student poses an immediate safety hazard to the bus driver, other passengers, and/or passersby while transportation services are being provided. In addition, students may be suspended or expelled from attendance at school because of severe misbehavior on a school bus or other public conveyance.

Suspension or Exclusion from Extracurricular or Co-curricular Activities

A student will be immediately suspended from all extracurricular and co-curricular activities when he/she receives a suspension (not including an in-school detention) from school for any reason. Violation of this Code may cause further disciplinary action from the coach or adviser. Any display of unsportsmanlike conduct toward an opponent or official, or the use of profanity, vulgarity, or lewd or obscene comments or gestures is prohibited while participating in a practice, a contest, or a performance. Such actions will result in counseling by the head coach or advisor and/or school administrator. A possible suspension from the extracurricular or co-curricular activity may result up to and including the remainder of the season or duration of the activity in that scholastic year may result. Such suspension will only be from the activity where the violation occurred. Students may be required to sign and comply with a behavior contract before being reinstated to active participation.

A student may be suspended from extracurricular and co-curricular activities for a period of time up to and including the remainder of his/her attendance in the District when he/she has been knowingly present, commits a **Level 4 Violation** of this Code, has been arrested, or it reasonably appears to the District that he/she has violated criminal law (other than infractions or minor traffic violations).

Bonneville Joint School District No. 93
Code of Student Conduct

If an investigation discloses that a student knowingly or in a malicious manner falsely accused another, he/she may be excluded from any form of extracurricular or co-curricular activity for a period of time up to and including the remainder of his/her attendance in the District.

SECTION 5

REPORTING DISCRIMINATION AND/OR SEXUAL HARASSMENT, INTIMIDATION, BULLYING, CYBER BULLYING, HAZING, OR MENACING OFFENSES

Students who believe they have been discriminated against, or a victim of sexual harassment, intimidation, bullying, cyber bullying, hazing, harassment, or menacing should contact a counselor, teacher, administrator, or Title IX coordinator (Assistant Superintendent, who is the District's appointed Nondiscrimination Coordinator - 208-525-4400), who will assist them in the complaint process. Information may be reported anonymously by completing the Harassment Reporting Form for Students #3290F and delivering it to a teacher, counselor, administrator, or District Title IX coordinator. Students should understand however, that an anonymous report will be much more difficult to investigate.

SECTION 6

LEVELS OF OFFENSES, LABELING OF RULE VIOLATIONS, AND INTERVENTIONS

Levels of Offenses

This Code divides violations into four levels. The level of offense dictates the severity of the remedial measure imposed. Interventions will generally become progressively more severe if rule infractions persist. However, the teacher or principal or his/her designee may move to the most severe penalty at any time based on the circumstances involved in a particular incident and the disciplinary history of the student. The principal or his/her designee may also reduce disciplinary sanctions when warranted.

Before determining the appropriate remedial measure to impose, the student's explanation shall be heard along with further consultation with school personnel, if necessary. However, the determination of sanctions shall be at the sole discretion of the principal or his/her designee pursuant to applicable law and District policy. No student shall be expelled, suspended, or disciplined in any manner for any act not related to the orderly operation of the school or school-sponsored activities or any aspect of the educational process.

Level 1 Violations

Level 1 violations are those infractions that are minor in nature and should be managed by the classroom teacher. Each teacher will manage classroom disruptions using in-class disciplinary action as well as student conferences, contacting parents or guardians, asking the parents or guardians to shadow the student, and/or conferring with other school staff. Students should only be referred to the principal or his/her designee for formal disciplinary action when interventions by the teacher have been ineffective or the disruption sufficiently severe.

Level 2 Violations

Level 2 violations are those infractions that are more disruptive and require removal of a student from the classroom or activity when it has been documented that the behavior has seriously disrupted the educational environment. These are managed by the principal or his/her designee in consultation with the student's parents or guardians when necessary and generally result in the student serving in-school detention, after-school detention, before-school detention, or Saturday School. If parents or guardians agree, students can be assigned a work detail at the school. Detention and work assignments will be under the supervision of a staff member. Parents or guardians will be notified prior to a student serving after-school or before-school detention and will be informed of the date and time at least two school days in advance of Saturday School.

The student may be temporarily suspended if rule infractions at this level persist. The following may be considered before deciding to suspend.

- Has the student been sent to the principal or his/her designee at least once before?

Bonneville Joint School District No. 93
Code of Student Conduct

- Have parents or guardians been informed that the behavior is a problem and that the student may be suspended?
- Has the student been referred to a guidance counselor?
- Has the student been given a work assignment before?
- Has the student been referred to an outside agency for assistance?

Level 3 Violations

Level 3 violations are major infractions managed by the principal or his/her designee and generally give rise to in-school suspension, out-of school suspension, or disciplinary reassignment of the student. The student may be placed in an alternative education program or recommended for expulsion at the discretion of the principal after consultation with the superintendent or his/her designee.

Level 4 Violations

Level 4 violations are severe infractions managed by the principal or his/her designee and law enforcement agencies. Students will be suspended and recommended to the Board of Trustees for expulsion. If a student commits an offense that causes critical human injury, extensive property damage, or excessive school disruption, the Board may decide not to allow her/him to attend any school in the District, including Lincoln Alternative High School, Technical Careers High School, and District 93 eCenter, Bonneville Online Elementary School or Bonneville Online High School. Referrals to community resources may be made. If a student is expelled during the last semester of his/her senior year, he/she will not be allowed to participate in the graduation ceremony.

Labeling Rule Violations

This Code separates violations at each level into two divisions: (1) **Elementary** and (2) **Secondary**. Rule violations are labeled by using **E** for elementary students followed by a **1, 2, 3, or 4** to indicate the level and then the **number** of the rule that was violated (such as E1:2 – Elementary level 1: Rule 2); or **S** for secondary students followed by a **1, 2, 3 or 4** to indicate the level and then the **number** of the rule that was violated (such as S1:2 – Secondary level 1: Rule 2). A rule violation may be placed at one level for elementary students and at a different level for secondary students or it may be placed at the same level for both. Placement of a rule at a certain level will depend on the perceived ability of students to understand or cause harm or damage.

Examples:

The Same Rule Listed at Different Levels

E2:12 means the violation is in the **Elementary** division under **Level 2** (Violations resulting in detention) and the rule that was violated is **Rule 12: Assault toward School Personnel**.

S3:12 means the violation is in the **Secondary** division under **Level 3** (Violations resulting in suspension) and the rule that was violated is **Rule 12: Assault toward School Personnel**.

The Same Rule Listed at the Same Level

E4:69 means the violation is in the **Elementary** division under **Level 4** (Violations resulting in recommendation to the Board for expulsion) and the rule that was violated is **Rule 69: Possession or Use of Firearms**.

S4:69 means the violation is in the **Secondary** division under **Level 4** (Violations resulting in recommendation to the Board for expulsion) and the rule that was violated is **Rule 69: Possession or Use of Firearms**.
